

IDX Risk Managed Bitcoin Trust

The First Risk-Managed Trusts

Built For Fiduciaries

The IDX Risk-Managed Bitcoin Trust is a private, open-ended trust that seeks to provide upside participation to Bitcoin with lower drawdowns and volatility than a long only exposure. The trust uses a proprietary, rules-based approach to allocate to either Bitcoin or Cash (USD) depending on the estimated favorability of the risk-regime.

IDX is the first to work with S&P Dow Jones to calculate Digital Assets Indices. The IDX Risk-Managed Bitcoin Index serves as a benchmark to the IDX Risk-Managed Bitcoin Trust. [Ticker: IDXBTC]
